TALK ABOUT  
**RUGGED!**

Illustrated with 600 pounds of weight being supported on our 8 foot acoustical frame giving approximately 40 LBS. per lineal foot of supporting flange for pre-hung ceilings. THAT'S RUGGED. These values are, however, limits not recommendations. Our troffer is now available with various types of mounting for numerous ceiling systems. For 2 and 3 lamp—fluorescent and slimline—lengths 48", 72" and 96", either individual or continuous.

**TROFFER SERIES 168**  
INGLEWOOD CALIFORNIA

Frames permit rapid floor assembly and setting into ceiling area before ceiling is completed. Ceiling contractor can finish to these frames, thus guaranteeing proper alignment for insertion of unit. Illustration shows removal of reflector for cleaning or access to ballast and wireway. These and other features simplify installation and maintenance requirements. IN OUTSTANDING BUILDINGS EVERYWHERE . . .

**JOHNSON  
AUTOMATIC  
TEMPERATURE  
CONTROL**

Johnson, unique in American industry, is the *only* nationwide organization devoted exclusively to manufacturing, planning and installing automatic temperature and air conditioning control systems. This vast reservoir of experience is readily available to architects, engineers, contractors and owners through the large staff of Johnson engineers in the factory and 80 direct branch offices.

For 69 years, Johnson engineers have been called upon to solve every conceivable type of temperature, humidity and air conditioning control problem. Their interesting work takes them into industrial, business, educational, large residential, public and institutional buildings of all sizes and types. No wonder Johnson Control is first choice in outstanding buildings . . . everywhere! **JOHNSON SERVICE COMPANY, Milwaukee 2, Wisconsin**
