ARMY AND NAVY ACADEMY CARLSBAD, CALIFORNIA WHERE THE CAMPUS MEETS THE SURF

If you are interested in a school of distinction for your son investi-gate this fully accredited military academy. One of the West's oldest. The only school in the West located imme diately on the Ocean. Summer Camp — Camp Pacific For catalogue: Box E, Carlsbad, California

electrometallurgy at the Intermountain Experiment Station, 1600 E. First South St., Salt Lake City.

1932

Howard W. Finney, Certified Public Accountant, has opened offices for the

Accountant, has opened offices for the general practice of Public Accounting in Los Angeles. He was formerly Super-vising Accountant with Lybrand, Ross Bros. & Montgomety, of Los Angeles. K. H. Swart, B.S. '32, M.S. '33, who has been with Security Engineering Co., Inc. for the past 13 years, has been elected vice-president of the firm. Along with his new responsibilities Ken will with his new responsibilities Ken will retain his present position as chief engineer.

William Shockley was a visitor to the Caltech campus last month. On November 18 Dr. Shockley and Dr. John Bardeen, both of the Bell Telephone Lab-oratories in Murray Hill, N. J., gave a lecture-demonstration in 201 Bridge on "The Electronic Theory of the Transis-tor." Shockley and Bardeen share the credit for the discovery and development of this miniature device which threatens to replace the vacuum tube, and maybe even open up some brand new applications for electronics.

C. Philip Schoeller was here for a visit on November 30. He has just returned from Afghanistan where he has been doing work for the Morrison-Knud-sen Co. of New York.

1933

Ted Mitchell has been appointed Division Engineer of the Shell Oil Com-pany, at Long Beach. He also served as chairman of the Petroleum Division's meeting of the American Institute of Mining Engineers in Los Angeles in October.

Sidney F. Bamberger, B.S. '33, M.S. '36, died unexpectedly and without any previous warning of heart trouble, of a heart attack, on September 18, following an operation from which he was fully recovered.

1934

James Gregory has been appointed Superintendent of the Long Beach Di-vision of the Shell Oil Company.

John Sherborne has been promoted Chief Production Engineer of the Union Oil Company, at Whittier, Calif.

1935

Joseph A. Ashworth died in Bernardsville, N. J., on November 3. At the time of his death he was a physicist on the technical staff of the Bell Telephone

the technical staff of the Bell Lelephone Laboratories. A specialist in the study of magnetic materials, he had helped in the development of magnetic mines and mine detectors during the War. Jack M. Roehm has resigned from Buehler and Co. to accept a position as Assistant to the Director of the Re-search and Development Department of the Pullman Standard Car Manufactur-ing Co. in Hammond. Ind. ing Co. in Hammond, Ind. Victor W. Willits has returned to the

Long Beach plant after working for Procter & Gamble in Cincinnati (1940-41) and Dallas (1941-1948).

1936

Jim Watts is now Assistant Superintendent of Production for the Southern Division of General Petroleum Corporation.

1937

1937 Warren Fenzi has been steadily mov-ing up in the organization of the Phelps-Dodge Co. at Morenci, Ariz. He was recently promoted from the position of Mine Superintendent to that of Gen-eral Superintendent—in charge of the mine, mill, and smelter.

Peter H. Wyckoff's new business ad-dress: Chief Experimental Physics Lab-

aress: Chief Experimental Physics Lab-oratory, Cambridge Field Station, 230 Albany St., Cambridge, Mass. Holloway H. Frost who has been with the Socony-Vacuum Oil Co. in Cairo, Egypt, is now back in this country at Corpus Christi, Texas.

1938

Forrest Nelson Daggett, ex-'38, Foreign Service Officer, has been transferred to Ottawa as Second Secretary and Vice Consul. He had been Second Secretary to the American Legation at Wellington, New Zealand. Since he entered the Foreign Service in 1942 he has served in Rio de Janeiro, Para, Manaos, Sydney and Wellington.

Robert S. Custer, now doing process design work for the Bechtel Corp. in San Francisco, has moved into a new house at 508 Pope St., North Palo Alto. Ralph D. Baker, Ph.D., is professor of Aeronautical Engineering at the University of Utah.

1940

Don Kupper is back at Yale doing graduate work in Geology. His address: Box 2721, Yale Station, New Haven, Conn.

Forrest Hall and his wife announce the arrival of a son on October 12. Hall is an Associate Professor at the University of Idaho, teaching structural engineering.

1941

William L. Ingersoll is now in Venezuela as a construction engineer for Standard Oil Co. of California.

1942

Joseph B. Franzini and Mrs. Franzini announce the arrival of a second son, Robert, on September 2. Their first son, Joe, is now 16 months old.

Joe, is now 16 months old. Ventakachalam Cadambe, M.S., is now Assistant Director to the Head of the Department of Applied Mechanics and Materials at the National Physical Laboratory of India. He resigned his position as Technical Officer of Tata Aircraft Ltd., India.

1945

Robert L. Bennett, a transportation supervisor for Pacific Tel & Tel, is building a new home in Chapman Woods, Pasadena.

Edward I. Brown is now an aerodynamicist for Northrup-Hendy. He and his wife have a $1\frac{1}{2}$ -year-old daughter, Linda.

Richard A. Sutton writes from Venezuela: "Since starting to work for the Creole Petroleum Corporation a year ago I've learned some interesting facts. Creole, whose operations are confined to Venezuela, is the world's largest producer of crude oil, two-thirds of which comes from the Lake Maracaibo region. The company, a subsidiary of Standard Oil of New Jersey, pioneered deep water drilling.

drilling. "All lake well foundations are of either concrete piles or specially constructed caissons. The concrete piles (21" square and up to 133' long) are some of the largest in the world, and the caissons are up to 165 feet long. To drive these, two of the world's largest pile drivers are used. The caissons are sunk using four 50-ton concrete blocks. The wells are drilled using special drilling barges which are towed from location to location.

"I remember graduating as an M.E., but here my work has been everything but that of an M.E. (My first job was to raise a sunken barge.) At present I'm a pile-driving foreman, doing some work on the waterfront development. The work has been varied and interesting.

"I've had to wait one year to be assigned a company house so my wife can come down here. This may be one reason I've neither seen nor heard of any Tech men on the eastern shore of Lake Maracaibo."

Wayne H. Brown is a design engineer for Northrup Aircraft. He and his wife have two sons—Steven, 4, and David, $1\frac{1}{2}$.

W'lliam Hovanitz, Ph.D., has been appointed Assistant Professor of Biology at Wayne University.

1944

Wesley Sandell has been selected a George F. Baker Scholar at Harvard University's Graduate School of Busi-
