Due to lack of space it is impossible to complete the list of Men in Service in the June issue. Names beginning with the letters "Mc" to "Z" will be published in the July issue.

ATHLETICS

By H. Z. MUSSELMAN,
Director of Physical Education

THE month of May, 1945, will bear a prominent place in the athletic history of California Institute of Technology, for it was this month that three sports—baseball, track and swimming brought league championships to the Institute. This together with the tennis tournament victories and the undefeated, untied and unscored-on record of the football team last Fall, makes the 1944-1945 sport season the most outstanding ever recorded at Caltech.

The baseball team won seven out of eight league games, winning two games from each, U.C.L.A., Pepperdine and Occidental, and split the series with U.S.C. The Beavers clinched the title two weeks before the season closed, when an 8-0 victory over U.C.L.A. put the Bruins out of the running. The only defeat registered by the Engineers was at the hands of U.S.C. when the Trojans grabbed a 11-9 mid-season free-hitting affair. Featuring the season were the two victories over U.C.L.A. at the time when the Bruins were fighting it out with Tech for the top spot. In the first engagement, Jack Anderson, starting his first game of the season, pitched and batted his team to a 3-1 victory, while holding his opponents to six hits and striking out nine men. In the return encounter, Anderson again was in fine form, limiting U.C.L.A. to four hits while his team mates pounded out an 8-0 victory. Incidentally, only one other shutout game was recorded in the league this season.

With Anderson and Dick Roettger, two topnotch pitchers, available, many midweek games were played with the record against Junior College and the top Service teams as impressive as the league record. The complete result for the season shows 17 victories and one tie in 22 games played. The team was strong in all departments and all league games were won in a convincing manner. Six men finished the season with a batting average of over .350 in league contests.

The league results:

| | | | |
|-------------------|----|----------------------|----|
| Caltech | 21 | Pepperdine | 5 |
| Caltech | 10 | U.S.C. | 9 |
| Caltech | 13 | Occidental | 2 |
| Caltech | 9 | U.S.C. | 11 |
| Caltech | 3 | U.C.L.A. | 1 |
| Caltech | 13 | Pepperdine | 3 |
| Caltech | 8 | U.C.L.A. | 0 |
| Caltech | 7 | Occidental | 3 |

Dr. Floyd Hanes and his sensational track squad produced a season of thrills by winning the conference meet, accounting for victories over U.S.C., U.C.L.A. and California, defeating all comers at the Fresno West Coast Relays and finishing a close second in the Modesto Relays.

Seeking further laurels, Caltech rudely startled the sports world by trouncing U.S.C., U.C.L.A., and California to capture three dual meets in one afternoon in a feature meet at the Coliseum.

| | | | |
|-------------------|--------|----------------------|--------|
| Caltech | 70-1/3 | U.S.C. | 60-2/3 |
| Caltech | 68-2/3 | California | 62-1/3 |
| Caltech | 83-2/3 | U.C.L.A. | 47-1/3 |

Winning from three major schools in a decisive manner, several of the Tech spikesters turned in their best performance of the season. Frady was nosed out by Beaman of SC in the 100, but came back strong to annex the 220 in 21.8s. Ken Shauer cracked the Caltech 440 record for the second time this season with a 49.4s win, while Neilsen topped his record with a mark of 12 ft. 6 in. win in the pole vault. The mile relay team of Roger Clapp, Bill Frady, Stuart Bates and Ken Shauer won over California by 10 yards in 3m 22.5s, the best time registered on the coast this season.

In the competition, first places were evenly divided

between Caltech, U.S.C. and California—each school leading the field in five events.

Caltech won its first Fresno Relays open championship, annexing the title through a last minute victory in the mile relay. The Engineers scored 41 points. Olympic Club placed second with 36 points. California nosed the defending champions, U.S.C., for third with 32½ points to 32. U.C.L.A. Bruins registered 25, with various minor teams trailing. The last Tech victory at Fresno was in 1927 when the Engineers won the Class B or College title.

Winning five of their six meets over U.S.C., U.C.L.A. and Occidental, Coach Bud Lyndon's swimming team concluded the season with an easy victory over these rivals in the Conference meet. Tech registered 63 points, U.S.C. was a close second with 59 points, while U.C.L.A. and Occidental trailed with 26 and 12 points respectively. Two high scorers for the season were Rex Cherryman, who set a new Caltech record of 1m 50.6s in the 150-yard back stroke and Don Lindsay, diver. Lindsay won his event in all meets, only to be nosed out by a few points by Fenton of U.C.L.A., whom he had defeated twice in dual meets.

After completing a mediocre season, in which the team won four and lost four, the Caltech tennis team came back strong to sweep the championships in the Intercollegiate Tennis Tournament. In the finals Stan Clark defeated his teammate, Jack Cardall, after the latter had scored an upset over Nick Buzolich of Pepperdine. Clark and Cardall also won the doubles championship in defeating the favorites, Burt and Donnell of U.S.C.

The Institute plans to send Clark and Cardall to the N.C.A.A. Intercollegiate Tennis Tournament at Northwestern University, which starts June 25.

For *Difficult* Handling Jobs . . .
 the **S & M TOP RIDING CRANE**

Unwieldy lengths of pipe and other heavy equipment are handled efficiently by an oil tool manufacturer with an S&M top riding crane, a partner in production to the S&M gantry crane.

We have a top riding crane for any capacity, range and size where this type is required . . . designed, produced and installed by trained S&M materials handling engineers.

Usually a standardized system has a variety of uses. Your future products may vary from present demands, but the top riding crane and other S&M overhead and floor handling equipment can be arranged to speed production and fit your present and coming needs. We'll be glad to work with you in solving your materials handling problem.
