

ALUMNI FUND

Report of the 9th Year — 1955 - 1956

ON MARCH 1, 1956, The Alumni Association established its third full-tuition four-year scholarship for undergraduates.

The Alumni Fund goal of four endowed scholarships can be achieved this coming year.

Alumni contributed \$29,000 this year, making a total of \$71,000 received towards the four-scholarship objective. A total of \$90,000 is needed.

Earnings from this Fund will pay the full four-year tuition for an outstanding high school graduate selected

to be a member of each new Freshman class starting at Tech. He wouldn't be at Tech except for your help. Let's finish our Fund goal this year, and get on with the next job.

Undergraduate contributions are tabulated below. The names of all contributors to the Alumni Fund for 1955-56 are listed on the following pages.

—William F. Nash, Jr.

AUDITOR'S REPORT

Alumni Association—California Institute of Technology

Pasadena, California

I have examined the Balance Sheet of the Alumni Association, California Institute of Technology as of June 30, 1956, and the related Statement of Income for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as I considered necessary in the circumstances.

In my opinion, the accompanying Balance Sheet and Statement of Income present fairly the financial position of the Alumni Association, California Institute of Technology at June 30, 1956, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

DALE J. STEPHENS, Public Accountant, South Pasadena
