

ALUMNI FUND

Report of the 10th Year — 1956 - 1957

ON JULY 1, 1957, the Alumni Association established its fourth full-tuition four-year endowed scholarship for undergraduates. A total of \$93,454.81 has been given by the alumni during the last four years for the purpose of establishing the four endowed scholarships. An additional \$6,876.50, from interest and contributions by others, makes a total of \$100,331.31. It is anticipated that earnings from this fund will provide four-year tuition for a selected, deserving member of each new freshman class starting at Tech.

Contributions to the fund this year amounted to

\$27,119.82. The names of all contributors for the year 1956-57 are listed on the following pages. We appreciate the cooperation of all who have made it possible to complete this Alumni Fund objective this year. We are sure all alumni will generously support the new goal of the Alumni Fund, of assisting the Institute in obtaining additional undergraduate housing facilities much needed on the campus.

—Edward P. Fletcher

—Robert H. Bungay

Directors in charge of the Alumni Fund 1956-57

TENTH YEAR — 1956 - 57

(As of June 30, 1957)

Alumni Who Took Undergraduate Work at C.I.T.

CLASS	AMOUNT	NUMBER GIVING	AVERAGE GIFT	NUMBER ELIGIBLE	PERCENT OF ELIGIBLE GIVING
Prior 1915	\$ 61.00	8	\$ 7.63	22	36.4

ENGINEERING AND SCIENCE

* graduate degree only

The CASTELL habit starts you toward a BRIGHT FUTURE

Youngsters in engineering schools—you are the darlings of the corporations when you graduate. But your continued success will depend on your ability. Native talent, close application to your studies and the smoother, stronger graphite-saturated lead of imported CASTELL are an unbeatable combination. CASTELL adds skill to the hands of seasoned Pros. The CASTELL habit acquired in your formative years will stand you in good stead when you are on your own. Color—superior degrees, 8B to 10H.

If you prefer a holder, be sure to try LOCKTITE with the gun-rifled clutch, and 9030 imported CASTELL lead. Shop in your college store.

START TODAY TO PLAN TOMORROW

By knowing about some of the projects underway at the Babcock & Wilcox Company, an engineer may see his personal avenues of growth and advancement. For today B&W stands poised at a new era of expansion and development.

Here's an indication of what's going on at B&W, with the consequent opportunities that are opening up for engineers. The Boiler Division is building the world's largest steam generator. The Tubular Products Division recently introduced extruded seamless titanium tubing, one result of its metallurgical research. The Refractories Division developed the first refractory concrete that will withstand temperatures up to 3200 F. The Atomic Energy Division is under contract by the AEC to design and build the propulsion unit of the world's first nuclear-powered cargo vessel.

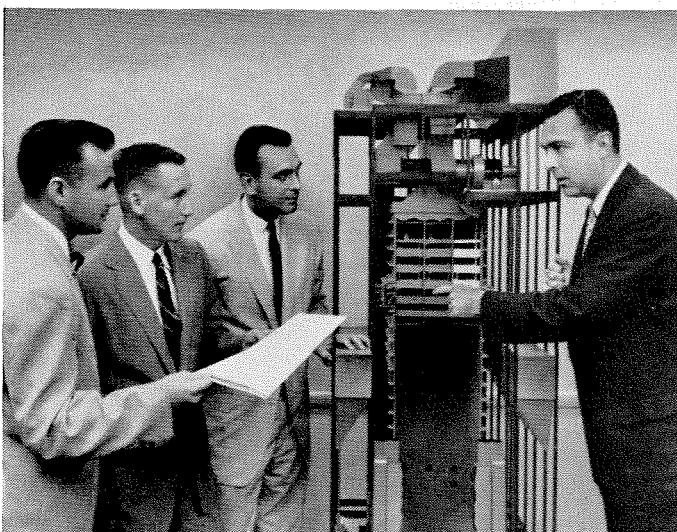

These are but a few of the projects — not in the planning stage, but in the actual design and manufacturing phases — upon which B&W engineers are now engaged. The continuing, integrated growth of the company offers engineers an assured future of leadership.

How is the company doing right now? Let's look at one line from the Annual Stockholders' Report.

CONSOLIDATED STATEMENT OF INCOME

(Statistics Section)
(in thousands of dollars)

1954	1955	1956—UNFILLED ORDERS (backlog)
\$129,464	\$213,456	\$427,288

B&W engineers discuss developments in the Universal Pressure Boiler.

Ask your placement officer for a copy of "Opportunities with Babcock & Wilcox" when you arrange your interview with B&W representatives on your campus. Or write, The Babcock & Wilcox Company, Student Training Department, 161 East 42nd Street, New York 17, N. Y.

EDISON NEEDS ENGINEERS

CIVIL ELECTRICAL MECHANICAL

SOUTHERN CALIFORNIA EDISON COMPANY, the fastest-growing electric utility company in the United States, serves one of the fastest-growing areas of the nation.

In anticipation of future power requirements, Southern California Edison is pioneering in an experimental atomic electric generating plant which will be the first in the West to produce electricity on a commercial basis.

Because of Edison's growth and its policies of leadership in technological fields and promoting from within, the opportunities for advancement with the company are at an unprecedented high.

Edison's employee benefits include a medical and sick leave plan plus outstanding retirement, vacation and insurance plans. For all the details please write or call:

Mr. C. T. Malloy, Southern California Edison Company,
P.O. Box 351 — Michigan 7111, Los Angeles 53, California.

AUDITOR'S REPORT

Board of Directors—Alumni Association—California Institute of Technology
Pasadena, California

I have examined the Balance Sheet of the Alumni Association, California Institute of Technology as of June 30, 1957, and the related Statement of Income for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as I considered necessary in the circumstances.

In my opinion, the accompanying Balance Sheet and Statement of Income present fairly the financial position of the Alumni Association, California Institute of Technology at June 30, 1957, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

September 23, 1957 DALE J. STEPHENS, Public Accountant, South Pasadena, Calif.
