ALFRED J. STAMM

Dr. Stamm received his B.S. degree in chemistry from Caltech in 1921, and his M.S. and Ph.D. degrees from the University of Wisconsin in 1923 and 1925. Since 1921 he has been associate chemist to principal chemist, U. S. Forest Products Laboratory, Madison, Wis. He has written over fifty publications on colloidal and physical chemistry of wood and wood constituents.

son, Wis. He has written over fifty publications on colloidal and physical chemistry of wood and wood constituents.

VICTOR VEYSEY

Mr. Veysey was graduated with a degree in civil engineering from the California Institute of Technology in 1938 and received his M.B. A. degree from Harvard Business School in 1938. He was instructor in economics and accounting at Caltech until 1940

and then at Stanford Business School. He is now assistant professor of economics and industrial relations at Caltech and supervisor of industrial management in the E. S. M. W. T. program.

FRITS W. WENT

Dr. Went, professor of plant physiology at the California Institute of Technology, came to Pasadena from Java, where he was connected with the Botanic Gardens in Buitenzorg as director of Foreigners' Laboratory. Since receiving his Ph.D. at the University

of Utrecht, Holland, Dr. Went has been interested in the physiology of growth and its practical applications.

ROYAL W. SORENSEN

Professor Sorensen received his electrical engineering training from the University of Colorado. He was in industry for several years as consulting engineer for various companies. In 1940-1941 he served as president of the American Institute of Electrical

Engineers. Professor Sorensen has been with the California Institute of Technology since 1910.

ENGINEERING AND SCIENCE MONTHLY is published monthly on the 25th of each month by the Alumni Association, Inc., California Institute of Technology, 1201 East California Street, Pasadena, California. Annual subscription \$2.50; single copies 35 cents. Entered as second class matter at the Post Office at Pasadena, California, on September 6, 1939, under the Act of March 3, 1879. All publishers' Rights Reserved. Reproduction of material contained herein forbidden without written authorization.
