

BY-LINES

POL E. DUWEZ

Dr. Duwez received his training in metallurgical engineering, physics and mathematics from the School of Mines, Mons, Belgium, where he was later head of the laboratory for research in ceramics, and from the University of Brussels. He was a research fellow, and is now a research engineer at Caltech.

B. W. MORANT

Mr. Morant is shop instructor in the Industrial Design Section of the California Institute of Technology. Since June, 1941, he has been doing shop work and tool engineering for the Institute. Mr. Morant's previous experience had been gained in the building industry and in the design of small machine tools.

VICTOR V. VEYSEY

Mr. Veysey received his B.S. degree in civil engineering from Caltech in 1936 and his M.B.A. degree from Harvard Business School in 1938. He was instructor in economics and accounting at the Institute and at Stanford, but is now assistant professor of economics and industrial relations at the Institute.

ANTONIN HEYTHUM

Mr. Heythum, of the Faculty of the Industrial Design Section at the Institute, received his training at the Prague Institute of Technology. Before coming to the United States in 1939 as architect for the Czechoslovak Government for the World's Fair, he was active in commercial and industrial design in Europe.
